Dear Mac,

After I wrote and asked for your assistance in getting copies of the published materials of the House Select Committee on assassinations I was phoned by Mrs. Byron's office, from which I had had no response for quite some time.

They are getting these volumes for me, which I appreciate very much.

So I write immediately in the hope I can save some time for your staff by their not having to undertake this added effort.

If your staff has already done this and has obtained any copies I am certain that Dr. Gerald McKnight of the Hood History faculty would appreciate any copies that may be available.

Thanks and best wishes,

Harold Weisberg
